Reply (16 January 2014) from Marco Aurelio dos Santos (COPPE, Federal University of Rio de Janeiro) to a request for a copy of his technical report with Luis Pinguelli Rosa entitled "Options for Monitoring Emissions of GHGs: Providing Thresholds and Criteria for Hydroelectric Reservoirs", cited in:

CDM Methodologies Panel (2006) Draft thresholds and criteria for the eligibility of hydroelectric reservoirs as CDM projects. CDM Meth Panel Nineteenth Meeting Report, Annex 10, UNFCCC, Bonn, Germany. 2 pp.  
[http://cdm.unfccc.int/Panels/meth/meeting/06/Meth19\\_repan\\_10\\_Hydro.pdf](http://cdm.unfccc.int/Panels/meth/meeting/06/Meth19_repan_10_Hydro.pdf)

**English translation:**

Dear Professor Fearnside,

Actually this quote is not a paper but a report that the CDM Executive Board commissioned from our research group.

Because it was a document produced from a contract of service, confidentiality was required.

What they put on the CDM website represents their analysis, based on our report.

Sincerely,  
Marco Aurelio

**Original message:**

Prezado Prof Fearnside,

Na realidade esta citação não é um paper e sim um relatório encomendado pelo CDM Executive Board ao nosso grupo de pesquisa.

Por ter sido um documento produzido a partir de um contrato de prestação de serviços foi exigido confidencialidade.

O que eles colocaram no site do CDM representa a análise deles, baseada no nosso relatório.

Atenciosamente,  
Marco Aurelio
